Shofar Sho Good!

Pictured here are the many horns that were displayed at Last week's Shofar Factory. Talmud Torah students learned where Shofars come from, how they are made and then they sanded, cleaned, polished and BLEW their own Shofars!

The Crowd!

Rabbi Zalmy fields questions after the multi-media demo on Shofar making.

Safety First!

Gloves, Goggles and Face Masks were used to ensure safety. Did you know that protecting your health is a Mitzvah in the Torah?

Sand N' Shine

Sandpaper removes the bumps and imperfections on the Shofar. Sort of like Teshuva (Returning to G-d through repentance) does for the Jew on Rosh Hashana. Have a smooth year!
